Code Snippet 1
hello Dojo

function/variable/console	prints	value/returns
hello()	hello	
console.log('Dojo')	Dojo	

Code Snippet 2
hello
result is 15

function/variable/console	prints	value/returns
hello()	hello	15
result		15
console.log('result is', result	result is 15	

Code Snippet 3
num is 3
x is 18

function/variable/console	prints	value/returns
numPlus(3)	num is3	18
result		18
console.log('x is', result	x is 18	

Code Snippet 4 - there is a twist
15
10
10
15

function/variable/console	prints	value/returns
num		15
console.log(num)	15	
logAndReturn(10)	10	num = 10
result		10
console.log(result)	10	
console.log(num)	15	

Code Snippet 5
15
10
20
15

function/variable/console	prints	value/returns
num		15
console.log(num)	15	
timesTwo(10)	10	num = 20
result		20
console.log(result)	20	
console.log(num)	15	

Code Snippet 6
num is 3
num is 5
result is 16

function/variable/console	prints	value/returns
timesTwoAgain(3)	num is 3	6
timesTwoAgain(5)	num is 5	10
result		16
console.log('result is' result	result is 16	

Code Snippet 7
5
8

function/variable/console	prints	value/returns
sumNums(2,3)		5
console.log(sumNums(2,3))	5	
sumNums(3,5)		8
console.log(sumNums(3,5))	8	

Code Snippet 8
2
5
3
8

function/variable/console	prints	value/returns
printSumNums(2,3)	2	5
console.log(printSumNums(2,3))	5	

Code Snippet 9
sum is 5
sum is 8
result is 13

function/variable/console	prints	value/returns
sumNums(2,3)	sum is 5	5
sumNums(3,5)	sum is 8	8
result		13
console.log('result is 13)	result is 13	

Code Snippet 10
sum is 5
sum is 3
sum is 6
sum is 3
sum is 5
sum is 8
result is 19

function/variable/console	prints	value/returns
sumNums(2,3)	sum is 5	5
sumNums(2,1)	sum is 3	3
sumNums(3,sumNums(2,1))	sum is 6	6
sumNums(2,1)	sum is 3	3
sumNums(2,3)	sum is 5	5
sumNums(sumNums(2,1), sumNums	sum is 8	8
result		19
console.log('result is 13)	result is 19
